

Kindergarten

"Providing child-centered education as we celebrate who our students are in Jesus."

Readiness. Relational.

Kindergarten at Casas Christian School is a one-of-a-kind experience. Students enter into this first formal schooling with a range of prior experience, a sense of wonder, and an enthusiasm for life and learning that is unique to this grade!

Our program is uniquely designed to identify and teach to each student's readiness level across all content areas. Students will be engaged in active, meaningful and relevant learning through large and small groups, as well as individual instruction.

Casas Christian School's whole child approach aims to develop the whole child spiritually, emotionally, and academically. Teachers use a variety of movement activities, visuals, songs, technology, and creative projects, as well as enrichment, hands-on manipulatives, collaborative learning experiences, and targeted instruction.

Events & Field Trips

Kindergarten attends quarterly field trips, as well as holds special thematic days throughout the school year! Kindergarten at CCS is not only a place of learning but also fascination and enjoyment for a kindergartener.

Specialist Classes

Art	Music
Spanish	PE
